## OPINIONS:

“One-year courses provide many hours of classes accompanied by a cultural offer. Groups are small and we can recognise every student’s needs. Our students not only learn Polish but also learn to understand Poles, our mentality, get to know our customs and traditions, visit the most interesting recesses of the city and go to museums, but also enjoy themselves singing, dancing, cooking, doing sport etc. After a year’s course, Russian native speakers know Polish at a B2 level, which enables them to study at every Polish university. Students from non-Slavic regions, however, usually reach a B1 level and can be admitted to university studies conditionally. We have an individual approach to students. We always have time to listen to them and support them. I know that students appreciate that and even when a course ends, they keep in close contact with us.”

**Elżbieta Jurczak, Polish language teacher**

“The Polish language course at Lazarski University is very useful. I spent little time on learning but I acquired a lot of knowledge. What impressed me at first was the teachers’ enthusiasm and behaviour. They are very sympathetic and not afraid of explaining the exercises. What I was most surprised of was my result. Polish is one of the most difficult languages to learn so I didn’t think I could speak and listen to. But after the course, I can speak to Polish people! The atmosphere at the course, in my opinion, is very convenient. The teacher taught carefully and classes were real fun. But you had to do homework on time otherwise she was not satisfied with your work. Do I recommend the course? Yes, of course. In my opinion, if you want to learn Polish, don’t forget to enrol in Lazarski University. I think it’s the best choice for you.”

**Hai Duong Minh, one-year course student**
