PROGRAMME

Basic Information

Bachelor of Arts in Management (MAN) is a three-year, six-semester programme offered by the Lazarski University in Warsaw, Poland. The language of instruction is English. Teaching, assessment, grading and quality assurance are also conducted in English and meets Polish standards. The graduates of the programme will be awarded a Polish Bachelor of Arts degree (issued by Lazarski University).

Rationale

Every organization needs good managers - whether it be a government institution, a non-profit organization, a private business or a multinational corporation. Through the BA in Management program at Lazarski University, students will gain the skills necessary to operate in complex and difficult work environments. They will learn the basics of organizational, financial, and human resource management, and will build the foundation necessary to launch successful and meaningful careers. Through this program, students will be able to specialize in two fields: Tourism and Travel Management or Logistics.

Aims and Learning Outcomes

To gain the qualification the student will have demonstrated i) subject knowledge and understanding ii) cognitive skills iii) subject-specific practical and professional skills and iv) other general skills and capabilities specified in the learning outcomes for modules within the programme.

Specifically the graduate of the Bachelor Degree in Management will demonstrate the following qualities, skills, capabilities and values:

i) Knowledge

- Distinguishes and characterizes basic types of economic systems (regimes) and their components
- Is aware of fundamental principles and concepts of economic theories
- Is aware of the genesis and evolution of management sciences in the context of economic development
- Is aware of key concepts in enterpreneurship theories regarding formation, functioning, transformation, and development of economic organizations
- Is aware of links existing between economic entities and other social institutions which define their environment at the national and international level
- Is aware of the impact exerted by external environment on enterprise activity
- Is aware of functional entrepreneurial areas and links between them, also in conjunction with personal experiences in the working environment
- Is aware of the role and functions of enterprise
- Is aware of basic concepts and theories of human motivation
- Is aware of the nature and conditioning of entrepreneurship in individuals and teams
- Is aware of leadership functions and their dependence on the type of enterprise and extent of its activities
- Is aware of entrepreneurship culture and its impact on team efficiency
- Is aware of standard statistical methods and software tools for collecting, analyzing, and presenting economic and social data

- Is aware of standard methods in econometrics, operational research, and other methods contributing to decision-making processes
- Is aware of typical research methods in respective areas of entrepreneurial activity
- Is aware of strategic analysis methods in the enterprise and its environment
- Is aware of the importance of norms and standards in particular areas of entrepreneurial activity
- Is aware of the role and importance of organizational structures and regulations
- Is aware of the historical evolution of entrepreneurial structures
- Is aware of the importance of leadership and negotiations in the transformation processes of economic structures and enterprises
- Is aware of the role of culture, ethics, and technical progress in the transformation processes of modern enterprises
- Is aware of and understands the basic concepts and principles of intellectual property protection and copyright
- Is aware of the basic principles of creation and development of individual entrepreneurship.

ii) Skills

- Is able to apply basic theoretical knowledge in respective areas of entrepreneurial activity
- Is able to apply basic knowledge to collaborate with other functional areas in typical professional situations
- Possesses the ability to initiate and develop economic activities
- Is able to observe phenomena and processes in an organization, as well as describe, analyze, and interpret them with the help of basic approaches and theoretical concepts
- Is able to formulate research problems and analyze them in order to solve common entrepreneurial challenges
- Is able to apply appropriate methods and tools to describe and analyze problems and areas of activity of enterprise or other organization
- Is able to apply appropriate methods and tools to describe and analyze the environment of enterprise or another organization
- Is able to analyze and forecast the levels and dynamics of selected values and performance indicators of enterprise or other institutions
- Is able to identify principles and criteria required to solve entrepreneurial challenges
- Is able to assess the viability of solutions and make decisions on predominantly operational and tactical levels
- Is able to utilize appropriate methods and analytical tools, as well as computer systems supporting decision-making processes
- Is able to perform an audit of selected areas of an enterprise or another organization
- Is able to utilize commonly acknowledged norms and standards in processes of planning, organizing, motivating, and controlling
- Is able to refer to laws and systems of entrepreneurial norms in order to justify specific activities
- Is able to recognize the need for changes in organization and develop a change management
- Is able to lead and co-operate in projects aimed at introducing certain changes in the organization
- Is able to plan and manage individual time, as well as time in collaborative ventures
- Is able to anticipate the behavior of co-workers, analyze their motives, and influence them within a particular scope
- Is able to effectively manage human, material, financial and information resources in order to perform tasks

- Is able to interpret selected problems of modern economy and business in the light of accomplishments and views of respected economics and management scientists
- Is able to speak a foreign language at the B2 level, is able to easily establish interpersonal contacts and cooperate with representatives of other states and nations
- Is able to compose written and oral texts typical for the field of activity, and present them in Polish and a foreign language.

iii) Social Competences

- Is prepared to organize and supervise the work of project and task teams, as well as enterprises within and outside their environment
- Is prepared to participate in the construction of social projects which also embrace economic and managerial aspects of entrepreneurship
- Is prepared to communicate with environment within outside the workplace and , as well as transfer individual knowledge utilizing various means of communication
- Is prepared to persuade and negotiate in order to achieve common goals
- Is prepared to openly communicate and defend personal opinions not only on professional
- Is prepared to navigate the job market and change the place of employment
- Is prepared to adapt to and operate in new conditions and situations related with e.g. cultural differences of a given group
- Is prepared to develop and effectively utilize interpersonal skills
- Is prepared for independent acquisition and improvement of knowledge, as well as professional and research skills
- Is prepared for ethical behaviour within assigned organizational and social roles
- Is prepared to responsibility for the assigned tasks

Graduates

Management (MAN) graduates will be specialists well-trained in modern scholarship — including both academic and applied knowledge with practical professional skills. Graduates will be employed in:

- the departments responsible for production, service, marketing, sales and administration in any industry
- agencies and firms engaged in marketing and promotion,
- consulting companies or companies involved in the search for experts on the labour market,
- non-profit organizations,
- multinational corporations,
- banks and financial institutions,
- web companies dealing with issues of tourism and travel,
- advertising agencies and PR companies

Useful information

Students are asked to contact the Validated Studies Registrar personally (room 362 / 3rd floor / sector F), by phone (022 54 35 369) or e-mail (validated.studies@lazarski.edu.pl) when they:

- need an application form to the Programme Director and want to submit it;
- need a statement about their student status;
- change their personal details, address, e-mail address or telephone number;
- face a sudden personal situation that has influenced their current mode of studies;
- have lost their ID card;
- have a disability;
- wish to withdraw;
- have a complaint;
- have any other issues related to the studies.

Students are asked to contact the Accountancy Department in all issues related to financial issues of the studies (room 203 / 2nd floor / sector D) or e-mail (kwestura@lazarski.edu.pl)

ADMISSION PROCEDURES

Lazarski University offers the Bachelor of Arts in Management (MAN) Programme with the thought of attracting international (especially East European) as well as Polish students. The candidates must complete secondary education prior to the admission. Additionally, we expect that they are proficient in English. They need to present either internationally recognized English certificates or pass a language test at Lazarski University. For applicants whose first language is not English, the minimum English Language Requirements is 6.0 IELTS.

The required documents are:

- Original or certified true copy of second level diploma (A-level certificate or an appropriate local equivalent) translated into English by a sworn translator);
- Original or certified true copy of IELTS, Cambridge Advanced Proficiency, or TOEFL scores;
- To be eligible for admittance to study, a candidate shall have attained the age of 17 years or over at the time of entry.

THE DEGREE

Programme Title: Management

Degree Awarded: ВА

Credit Points: 180 European Credit Transfer System (ECTS) Credit Points

Duration:

To be awarded the BA in Management degree, students must complete all three years of the Programme and earn 180 ECTS credit points.

Each year of the BA in MAN Programme carries 60 ECTS credit points and each semester carries 30 ECTS credit points divided into required (core) and elective modules (courses).

Year 1 of the Programme (1st and 2nd semester) carries 60 ECTS credits, on the basis of eleven core modules and one elective, 5 credits each. Additionally, the students take a two semester Athletics required by Polish law.

Year 2 of the Programme (3rd and 4th semester) carries 60 ECTS credits, on the basis of twelve core modules, 5 credits each.

Year 3 of the Programme (5th and 6th semester) carries 60 ECTS credits, on the basis of six core modules and four electives, worth 5 or 10 credits respectively.

ASSESSMENT

Teaching and Learning

Each year of the BA in Management Programme carries 60 ECTS credit points and each semester carries 30 ECTS credit points divided into required (core) and elective modules (courses) worth 5 ECTS credit points each (in selected cases modules can be worth 7 or 10 ECTS).

Students' presence in all classes is obligatory. Absence in 3 classes without serious reasons may lead to failing the course. Repeated unexcused absence (more than 3 classes missed) may lead to deleting a student from the Programme by the Dean. Student can excuse his/her absence due to illness and other serious reasons. All absences must be reported to the Programme Director. Students, who without good cause, fail to complete their forms of assessment by the required date or absent themselves from examinations, will be awarded a zero mark for the element concerned.

Contact Hours

Each typical BA in MAN module of 5 ECTS credits requires about 125 hours of student workload. This includes:

- 30-45 hours of contact time comprising lectures, seminars, and workshops;
- Workshops taught by assistants play an important role, particularly during the first 3 semesters as a method of enforcing regular study, therefore gaining proper study habits; they also allow us to conduct frequent in-class exams
- 80-95 hours of individual study, including preparation of presentations and other projects, writing of term papers and examinations.

Several modules of 7 ECTS credits require about 175 hours of student workload. This includes:

- 45-60 hours of contact time comprising lectures, seminars, and workshops;
- 115-130 hours of individual study, including preparation of presentations and other projects.

The IRES BA Thesis Research and Writing Seminar of 10 ECTS credit points requires additional 100 hours, approximately, of individual study in the form of writing the BA Thesis.

Methods of assessment

The assessment process is adjusted to the requirements of each particular level (years of study). The system is based on continuous assessment of the students' knowledge and skills throughout the year. Final exams are never worth more than 50% of a course assessment, and there are a number of assignments and exams that students are expected to complete throughout the course. The students are informed from the beginning of the rigorous workload that they are expected to carry out.

The accepted methods of assessment include:

- Examination papers
- Essays
- Research projects
- Presentations with written reports
- In-class exams

- Midterm exams
- Thesis prospectus
- Extended dissertations
- In-class participation

Indicative proportion of t	he assessment methods
Final examination	40% - 60%
Mid-term exam	30% - 40%
Case studies, projects, tests	30% - 60%
Essays, written assignments	30% - 40%
In-class exams	20% - 30%

DETAILS OF COURSE ASSESSMENT

Course	Module Status	Methods of Assessment					
	Year 1						
	i Cai 1	•					
	Semeste	r1					
Introduction to Business	Core	Final exam: 60%; Coursework: 40% composed of a written group project (1500-2000 words)					
Introduction to Accounting	Core	Coursework (100%): Two in-class exams (30% each), Midterm Exam (40%)					
Introduction to Microeconomics	Core	Coursework (100%): Two in-class exams (each worth 30%), Final project (40%)					
Mathematics	Core	Final exam (60%); Coursework (40%) – two in-class exams each worth 20%					
Information Technology for Business	Core	Coursework (60%): Project 1 (30%), Project 2 (30%); Final Exam (40%)					
Academic Writing I (Advanced English)	Core	Coursework (100%): academic essay on a subject related to Management written at home (60%), two grammar module in-class exams (20% each)					
Semester 2							
Introduction to Macroeconomics	Core	Coursework (100%): Two in-class exams (each worth 30%), Final project (40%)					
Introduction to Finance	Core	Final Exam (60%), Mid-term exam (40%)					
Introduction to Marketing	Core	Coursework: group project (40%); Final Exam (60%)					
Management Accounting	Core	Coursework (100%): two in-class exams (each worth 30%), research project – case study (40%)					
Academic Writing II (Advanced English)	Core	Coursework (100%): one academic essay (60%); two in-class exams (20% each)					
Elective 1 out of 2	Elective	List of electives below					
Athletics	Core	To be clarified					
	Electives for Se	emester 2					
Introduction to Philosophy	Elective	Coursework: Midterm Exam (40%); Final Exam (60%)					
Introduction to Social Anthropology	Elective	Coursework: Research Paper (60%); Final Exam (40%)					
Conflict Resolution In Business	Elective	Coursework: Essay 40%; Final exam 60%					
Introduction to Business Administration	Elective	Coursework: 1st in-class exam (30%), 2nd in- class exam (30%); Project proposal (40%)					
Strategic Communications	Elective	Coursework (60%): In class presentation (20%), brief written assignment (20%), final presentation (20%). Final Exam (40%): submission of a Final Strategic Plan					

ERASMUS EXCHANGE PROGRAMME

Students admitted into the BA in MAN programmes are recommended to apply for Socrates/Erasmus study during the 4th semester of study. Applying for Socrates/Erasmus study may lead to the postponement of graduation from Łazarski University.

Students can apply for exchanges solely to institutions recognized by Łazarski University

The maximum number of ECTS credits that a candidate can undertake at an institution elsewhere should not exceed 60 (assuming a 180 ECTS credit degree).

Students should pursue modules at a level which is applicable to their level of study at Łazarski University.

Modules pursued elsewhere should not normally be core modules. Where core modules are substituted, the Erasmus Programme Coordinator should have made an evaluation of the replacement modules to be pursued by the candidate. If an equivalent module is not offered, the student should pursue the module(s) concerned on his/her return.

Candidates trailing modules are permitted to undertake study elsewhere, provided that they attempt retrieve failures on their return.

The methods of assessment should have been agreed by the module leaders concerned.

The Erasmus Programme Coordinator must approve the details of Socrates/Erasmus study program three months before undertaking such study, therefore students are asked to provide the Registrar with an accepted Learning Agreement by the Program Director until the end of May.

MARKING SCHEME

Assessment of modules and module components shall be made on the basis of percents, with those translated into the both the British letter grade system (A, B, B, C, D, F), and the Polish number grade system (5, 4.5, 4, 3.5, 3, 2).

Students will be assessed in English-language Programmes according to the following marking scheme:

70-100%	А
60-69%	В
50-59%	С
40-49%	D
0-34%	F*

^{*}mark 35-39% is a Marginal Fail (E)

For the purposes of translating percentage-scale grades into the Polish number scale, Lazarski University shall apply the following criteria:

71-100%	5,5 (celujący)
65-70%	5,0
59-64%	4,5
53-58%	4,0
47-52%	3,5
40-46%	3,0
0-39%	2,0

Students who receive 71% or above may also classify for a Polish grade of 5.5, or "celujący". This grade is possible to achieve by such a student who fulfils all the criteria listed_below:

- a. conducts scientific research or participates in group research,
- b. demonstrates outstanding knowledge and skills which are beyond the module content,
- c. is excellent at analysis and synthesis of issues,
- d. does not make any content-related errors.

Mark range	Guidelines
90 – 100% 80 – 89%	In addition to that for 70 – 79% below, an outstanding answer that could hardly be bettered. High degree of understanding, critical/analytic skills and original research, where specified. Outstanding in all respects. In addition to that for 70 – 79% below, the answer will demonstrate an excellent level of understanding, presence of clear description, critical/analytical skills or research, as appropriate.
70 – 79%	Answer entirely relevant to the assignment set. Answer will demonstrate clear understanding of theories, concepts, issues and methodology, as appropriate. There will be evidence of wideranging reading and/or research, as appropriate, beyond the minimum recommended. Answers will be written/presented in a clear, well-structured way with clarity of expression. At level 3, evidence of independent, critical thought would normally be expected.
65 – 69%	Answer demonstrating a very good understanding of the requirements of the assignment. Answer will demonstrate very good understanding of theories, concepts, issues and methodology, as appropriate. Answer will be mostly accurate/appropriate, with few errors. Little, if any, irrelevant material may be present. Reading beyond the recommended minimum will be present where appropriate. Well organised and clearly written/presented.
60 – 64%	A good understanding, with few errors. Some irrelevant material may be present. Well organised and clearly written/presented. Some reading/research beyond recommended in evidence.

Mark range	Guidelines
55 – 59%	Answer demonstrating a good understanding of relevant theories, concepts, issues and methodology. Some reading/research beyond that recommended may be present. Some errors may be present and inclusion of irrelevant material. May not be particularly well-structured, and/or clearly presented.
50 – 54%	Answer demonstrating a reasonable understanding of theories, concepts, issues and methodology. Answer likely to show some errors of understanding. May be significant amount of irrelevant material. May not be well-structured and expression/presentation may be unclear at times.
35 – 39%	Some relevant material will be present. Understanding will be poor with little evidence of reading/research on the topic. Fundamental errors and misunderstanding likely to be present. Poor structure and poor expression/presentation. Much material may not be relevant to the assignment.
30 – 34%	Inadequate answer with little relevant material and poor understanding of theories, concepts, issues and methodology, as appropriate. Fundamental errors and misunderstandings will be present. Material may be largely irrelevant. Poorly structured and poorly expressed/presented.
20 – 29% 0 – 19%	Clear failure to provide answer to the assignment. Little understanding and only a vague knowledge of the area. Serious and fundamental errors and lack of understanding. Virtually no evidence of relevant reading/research. Poorly structured and inadequately expressed/presented.
	Complete failure, virtually no understanding of requirements of the assignment. Material may be entirely irrelevant. Answer may be extremely short, and in note form only. Answer may be fundamentally wrong, or trivial. Not a serious attempt.

PROGRESSION

Lazarski University students are required to complete successfully the full annual assessment programme before being permitted to proceed to the next level of study. This means that:

- a. a student must pass each module in the programme.
- b. the minimum pass requirement for each module is 3.0 (40% according to British scale).
- c. in cases of modules with more than one component of assessment (i.e. coursework and final exam), the minimum component mark required is 35%.

BA in Management student can not be eligible for compensation or condonement of his/her mark (as it is practiced on validated programmes).

Resit examination

Reassessment of a module by resit of one or more components (as appropriate) is restricted to one attempt only. In the case of reassessment, the same basic rules apply as in the case of first-attempt assessment

- a. The total module mark of a reassessed module will not be capped at 40% (as it is practiced on validated programmes).
- b. If a module is failed, all components with a mark below 40% must be reassessed; marks over 40% in the other component shall be carried forward and combined with the reassessed component.
- c. Any module failed in the first attempt because of a failed component of the assessment and passed at the second attempt shall carry its original total mark from the first attempt.
- d. Any module component failed at the first attempt and failed at the second attempt shall carry the higher component mark of the two attempts.
- e. Dates of assessment may be deferred only in extraordinary circumstances with the consent of the Programme Director. Medical grounds are only permitted in case of a medical certificate from a hospital, which needs to be submitted within 7 calendar days starting from the date of discharge from hospital, together with an application to the Programme Director. Deferred first assessments shall be treated as a first attempt.

A student may not resit any module that has been passed or a component of assessment that has received a mark of 40% or above.

Repetition

Students who are not able to pass a module in second attempt may retake the module. The final mark for the retaken course will not be capped at 40% (as it is practiced on validated programmes).

If a student fails to pass more than five modules, he/she may be deleted from the programme by the decision of the Dean.

Deletion from the Programme

A BA student who scored less then 5 ECTS credits in one academic year may be terminated, or required to repeat the academic year by the Dean.

A terminated student may be allowed to enroll into their programme again, however, all marks have to be forfeited and the student begins with clear record.

Absence from Examinations and Assessments

Absence from examination or assessment at Lazarski University is permitted only in extraordinary circumstances. Medical grounds are only permitted in case of a medical certificate from a hospital, which needs to be submitted within 7 calendar days starting from the date of discharge from hospital, together with an application to the Programme Director. The Programme Director shall have discretion to decide whether, on the basis of the evidence received, a student has been absent with good cause.

If a student completes a module but is absent from the examination/assessment concerned for good cause, the Programme Director may permit the student:

- a. to sit a supplementary examination, or
- b. to sit the examination or submit the assessed work as a first attempt on the next occasion on which the examination/assessment is scheduled to take place.

The provisions described immediately above may be made only if:

- a. the Programme Director agrees that the supporting evidence is satisfactory,
- b. if the student's performance in other examinations or assessed work justifies such action.

A student who, without good cause, has been absent from any examination or failed to complete other forms of assessment by the required date, shall be awarded a zero mark for the examination/assessment concerned.

Thesis submission

The above rules apply to the submission of the final BA thesis as well. In case of late delivery of the thesis, the final mark for the thesis will not be capped at 40% (as it is practiced on validated programmes). Students are to consult a detailed thesis/dissertation timetable circulated at the beginning of each academic year.

DIRECTIONS TO STUDENTS AT EXAMINATIONS

The examinations will be held at times specified in the degree examination time-table. Students should be in their seats punctually at the hours fixed for the commencement of the examination.

No student may enter the examination room fifteen minutes or more after the commencement of an examination. Students are not permitted to leave the examination room until forty five minutes have elapsed, nor may they leave in the last fifteen minutes of the examination. Any student who has left the room without the invigilators' authority shall not be allowed to re-enter it during the examination. This regulation does not apply to students who completed their exams earlier and returned their work to the invigilator.

In every examination the students occupy the seats assigned to them by the invigilator.

Students may take into the examination room only such books, mathematical or other tables, printed documents, manuscripts, notes, formulae, electronic equipment or other source of information or assistance as have been approved by Łazarski University and the Examination Board. In some cases, where appropriate, students will be provided by Łazarski University with such material and / or equipment as the examiners consider necessary. Examination Boards shall prepare lists of material and / or equipment to be permitted in examination rooms and students shall be notified in advance, in writing of the contents of these lists and which, if any, of the permitted items will be provided by Łazarski.

The material and / or equipment which students are permitted to bring into the examination room shall bear no marks or notes of any kind other than the name of the owner and anything which is regarded as normal in the nature or construction of the item in question.

UNFAIR PRACTISE - RULES REGARDING CHEATING AND PLAGARISM

Cheating and plagiarism (or unfair practice) means any act whereby a person may obtain for himself/herself or for another, an unpermitted advantage which may or may not lead to a higher mark or grade than his/her abilities would otherwise secure. In particular it means the following:

- a. introduce into an examination room any unauthorized form of materials such as a book (including mathematical tables), manuscripts, or loose papers of any kind or any source of unauthorized information;
- b. communicate with any other person in the examination room, except as authorized by an Invigilator;
- c. copy or use in any other way unauthorized materials or the work of any other student;
- d. impersonate an examination student or allow oneself to be impersonated;
- e. engage in plagiarism by using other people's work and submitting it for examination as though it were one's own work;
- f. claim either to have carried out experiments, observations, interviews or any form of research which one has not in fact been carried out or to claim to have obtained results which have not in fact been obtained.

Where it is considered or suspected that a student is engaging in unfair practice, the student shall be informed by the invigilator, preferably in the presence of a witness, that the circumstances will be reported. The student shall, however, be allowed to continue the examination and any subsequent examination(s) without prejudice to any decision, which may be taken. Failure to give such a warning shall not, however, prejudice subsequent proceedings.

Where appropriate, the invigilator shall confiscate and retain evidence relating to any alleged unfair examination practice, so that it is available to any subsequent investigation. The invigilator shall as soon as possible report the circumstances in writing, with any evidence retained, to the Registrar worker.

Plagiarism can be defined as using another person's words or ideas without acknowledgment and submitting them for assessment as though it were one's own work, for instance by copying, translating from one language to another or unacknowledged paraphrasing. Further examples of plagiarism are given below:

- a. Use of any quotation(s) from the published or unpublished work of other persons, whether published in textbooks, articles, the Web, or in any other format, which quotations have not been clearly identified as such by being placed in quotation marks and acknowledged.
- b. Use of another person's words or ideas that has been slightly changed or paraphrased to make it look different from the original.
- c. Summarising another person's ideas, judgments, diagrams, figures, or computer programmes without reference to that person in the text and the source in the bibliography.
- d. Use of services of essay banks and/or any other agencies.
- e. Use of unacknowledged material downloaded from the Internet.
- f. Re-use of one's own material except as authorized by the department.

Lazarski University shall use anti-plagiarism software (i.e. Plagiat.pl and TurnitinUK) as well as other means to identify and reprimand acts of plagiarism.

Where an allegation of unfair practice arises at any time after an individual has been admitted to the BA in Management programmes at Lazarski University, the matter shall be investigated by the Committee of Inquiry.

In cases where students are found to be guilty of unfair practice, the Committee of Inquiry should inform the Provost who decides upon the appropriate penalty.

For more information see Appendix A

COMPLAINTS PROCEDURE

The Student Complaints procedure applies to:

- a. Students wishing to appeal against an academic decision of examiners (assessment and examinations);
- b. Complaints arising from a student's educational experience;
- c. Complaints in respect of academic and/or administrative support or other services provided by Lazarski University;
- d. Complaints regarding alleged harassment by staff of Lazarski University;
- e. Complaints arising from alleged discrimination by staff of Lazarski University in relation to gender, race, disability, sexual orientation or otherwise.
- f. Complaints falling outside those listed above will be considered and investigated at the discretion of the Programme Director.

The Student Complaints procedure does not apply to:

- a. Disciplinary matters;
- b. Issues concerning physical education and internships.

In order to make a formal complaint to Lazarski University, the student concerned should submit the Complaints Form (available in the Registrar), attach any supporting evidence to it and send to the Programme Director or to the Office of the Provost depending on the nature of complaint. The form can be submitted electronically, though certified copies of documents (e.g. medical certificates) may be requested. Should a student prefer the complaint to remain anonymous and it is feasible to do so, the Programme Director or Provost shall seek to respect the student's wishes.

The student may appeal to the University Appeals Board (Odwoławcza Komisja Dyscyplinarna) chaired by the University's Provost (*Rektor*) from the decisions of the Committee of Inquiry.

QUALITY ASSURANCE

The English-language programmes at Lazarski University are subject to university-wide quality assurance procedures as administered by the University Senate (Senat), the Board of the Faculty of Economics and Management (Rada Wydziału), the Executive Board of the Faculty of Economics and Management (Komisja Programowa i Kolegium Dziekańskie), and by Faculty Chairs (Katedry).

The overall responsibility for quality assurance of Lazarski's English-language programmes and their adherence to university-wide quality assurance procedures shall lie with the Dean of the Faculty of Economics and Management.

The Dean shall maintain regular contact with the Faculty Chairs, shall convene meetings of the Faculty Board and the Executive Faculty Board, and shall monitor the work of the Associate Dean in charge of English-language programmes.

The Associate Dean reports directly to the Dean of the Faculty of Economics and Management. He/she shall:

- a. monitor the work of Programme Directors;
- b. convene Committee of Inquiry hearings;
- c. oversee the general quality of the English-language Programmes.

The Programme Directors report directly to the Associate Dean for English-language Programmes. They shall:

- a. set programme content, programme structure, and ensure that the programmes adhere to educational standards set forth by the Polish Ministry of Higher Education;
- b. maintain regular contact with the teaching staff and students to assure proper quality of the teaching and learning process;
- c. make decisions regarding unfair practice, student complaints, student appeals and verification within their competencies.

In addition to university-wide quality assurance procedures Programme Faculty Meetings shall act as additional checks for quality assurance for Lazarski University's English-language programmes.

YEAR 1 – SEMESTER 1

	I	ntroduction [·]	to Business			
2. Module Code						
3. Academic Year, Semester, Module Status	2018/2019 academic year Semester 1, Core module					
4. Aims and Learning Outcomes	Aims The course will try to give a practical introduction into business activity by seeking to explore available cases of business practice as well as identifying links between economic theory and business reality. During this course students are introduced to general business principles that they can apply to their everyday lives. Through hands-on activities, tasks and projects, students will explore the basic principles of management and economics. The course will try to give a practical introduction into business activity by seeking to explore available cases of business practice as well as identifying links between economic theory and business reality. Issues include: entrepreneurship, business plan, BEP, executive summary, financial statements, organisation of company and its legal form. Learning Outcomes

4. Aims and Learning Outcomes	tools usevera Some function surplu	Aims The goal of this course is to make students familiar with basic mathematical tools used in economy and business. Topics include sets, functions of one and several variables, matrix algebra, introduction to the derivative and integral. Some basic connections with economics will be presented, e.g. the production function, the logistic function, the Leontief input-output model, consumer surplus, etc. Learning Outcomes Having completed this module student:

Module Status	
4. Aims and	Aims
Learning	By the end of the course the students will have improved their ability to write
Outcomes	academic texts and give academic presentations.
	This will be achieved by:
	1. the students reading texts related to Management and increasing their
	ability to read critically, identify stance and implied meanings in texts;
	the students developing their knowledge of vocabulary related to both Management and academic writing;
	3. the students developing an awareness of the use of topic sentences,
	paragraph organisation and employ these in the writing of essays;
	4. the students developing their ability to use formative feedback to
	improve their writing;
	5. the students developing their awareness of writing genres relevant to
	the study of Management as an academic discipline: case study and
	critical review;
	6. the students developing their listening and note taking skills in
	academic settings,
	7. the students developing their ability to think critically and use the
	Harvard referencing system and paraphrase / summary to the
	appropriate academic standard;
	8. the students developing their ability to work in pairs and small groups to accomplish tasks.

2. Module Code						
3. Academic Year, Semester, Module Status		2018/2019 academic year Semester 2, Core module				
4. Aims and Learning Outcomes	Aims The course puts emphasis on the relations between accounting information and management activities and decisions like strategic management, operations management, financial planning and control, organizational design, and performance evaluation Learning Outcomes Having completed this module, students should be familiar with the basic terminology, concepts, and techniques of managerial accounting. In addition, they should be able to utilize them in managerial problem solving, and be competent to critically evaluate managerial accounting data and reports.

	Introduction to Macroeconomics
2. Module Code	
3. Academic	2018/2019 academic year
Year, Semester,	Semester 2, Core module
Module Status	
4. Aims and	Aims The aim of this course is to introduce students to macroeconomic theory
Learning Outcomes	principles with the practical use of various macroeconomic models.
Outcomes	By the end of the course, students will be able to:
	1. Interpret and measure main macroeconomic categories;
	2. Identify main sectors of an economy and flows between them;
	3. Measure the economic flows [national/social accounting];
	4. Illustrate what an economic model is and how to build and handle one;
	5. Employ the basics of comparative statics analysis and use simple mathematics
	for multiplier analysis;
	6. Distinguish between short and long run analyses and models;
	7. Interpret the determinants of output in the long run;
	8. Understand the basic features of a labour market and understand the measures of un/employment;
	9. Explain basic categories in the area of money and banking, both historically and at present;
	10. Analyze the basics of short run fluctuations: understand and employ static/deterministic versions of the simple Keynesian [algebra and graphic exposition] and the IS-LM model [mostly graphical exposition and analysis] – both in a closed economy version);
	11. Describe and know how to measure the effects of basic types of
	macroeconomic policies in the short run;
	12. Relate the IS-LM analysis to the AD-AS framework.
	Learning Outcomes

	Conflict Resolution In Business
2. Module Code	
3. Academic Year, Semester, Module Status	2018/2019 academic year Semester 2, elective module
4. Aims and Learning Outcomes	Aims Negotiation is a regular part of our everyday business contact and transactions, though sometimes difficult to do very well. Negotiation skills are therefore seen as valuable instruments if placed in the hands of businessmen and individuals could help them in reaching mutually beneficial agreements respectful of differing interests. Looking to parties interests instead of their positions can make it possible to seal a deal in a spat of time without much cost. The goal of this class is to introduce students to the art of business negotiation. Economics and business students will also be introduced to the core strategies and principles in negotiation that impacts successful deal making between partners, corporations, and individuals alike. Learning Outcomes By the end of the course student:
Knowlodgo	Code

APPENDIX A – UNFAIR PRACTICE PROCEDURE

LU defines unfair practice as any act whereby a person may obtain for himself/herself or for another, an unpermitted advantage which may or may not lead to a higher mark or grade than his/her abilities would otherwise secure.

Unfair Practice under Non-Examination Conditions

Plagiarism is an example of unfair practice under non-examination conditions and is forbidden at Lazarski University. Plagiarism is the act of claiming the work of others as your own work. "Others" in this context can include fellow students and the authors of books, journals and internet material. Plagiarism is regarded as a form of cheating and is unacceptable.

Students learn from the work of others and may quote from it without penalty, but students should receive guidance as to accepted forms of academic referencing and citation. Where direct quotation appears to a student to be appropriate s/he must ensure that quotation marks and reference to the original author is clear within the text. Essays, projects and reports will also show the referenced works in the bibliography.

Plagiarism can be defined as using without acknowledgment another person's words or ideas and submitting them for assessment as though it were one's own work, for instance by copying, translating from one language to another or unacknowledged paraphrasing. Further examples of plagiarism are given below:

- a. Use of any quotation(s) from the published or unpublished work of other persons, whether published in textbooks, articles, the Web, or in any other format, which quotations have not been clearly identified as such by being placed in quotation marks and acknowledged.
- b. Use of another person's words or ideas that has been slightly changed or paraphrased to make it look different from the original.
- c. Summarising another person's ideas, judgments, diagrams, figures, or computer programmes without reference to that person in the text and the source in the bibliography.
- d. Use of services of essay banks and/or any other agencies.
- e. Use of unacknowledged material downloaded from the Internet.
- f. Re-use of one's own material except as authorized by the department.

Lazarski University shall use anti-plagiarism software (ie. Plagiat.pl and Turn-it-in) to identify and reprimand acts of plagiarism.

LU also considers collusion to fall under the definition of unfair practice, which occurs when work that has been undertaken by or with others is submitted and passed off as solely the work of one person. This also applies where the work of one student is submitted in the name of another. Where this is done with the knowledge of the originator both parties can be considered to be at fault.

The fabrication of data is also forbidden, i.e. the making of false claims to have carried out experiments, observations, interviews or other forms of data collection and analysis, or acting dishonestly in any other way.

Unfair Practice under Exam Conditions

Under exam conditions it is unfair practice to:

- a. introduce into an examination room any unauthorized form of materials such as a book (including mathematical tables), manuscripts, or loose papers of any kind or any source of unauthorized information:
- b. communicate with any other person in the examination room, except as authorized by an Invigilator;
- c. copy or use in any other way unauthorized materials or the work of any other student;
- d. impersonate an examination student or allow oneself to be impersonated;
- e. engage in plagiarism by using other people's work and submitting it for examination as though it were one's own work;
- f. claim either to have carried out experiments, observations, interviews or any form of research which one has not in fact been carried out or to claim to have obtained results which have not in fact been obtained.

The Unfair Practice Procedure

This procedure applies to allegations of unfair practice on any assessed component contributing to an award of Lazarski University or its partner university.

Where an allegation of unfair practice arises at any time after an individual has been admitted to the English-language programmes at LU, the matter shall be investigated by the Committee of Inquiry.

The student may appeal to the University Appeals Board (Odwoławcza Komisja Dyscyplinarna) chaired by the University's Provost (*Rektor*) from the decisions of the Committee of Inquiry.

In cases of unfair practice, the Committee of Inquiry and the Appeals Board have the power to initiate proceedings to revoke the individual of the degree.

Unfair Practice in the Examination Room

Where it is considered or suspected that a student is engaging in unfair practice, the student shall be informed, preferably in the presence of a witness, that the circumstances will be reported. The student shall, however, be allowed to continue the examination and any subsequent examination(s) without prejudice to any decision, which may be taken. Failure to give such a warning shall not, however, prejudice subsequent proceedings.

Where appropriate, the invigilator shall confiscate and retain evidence relating to any alleged unfair examination practice, so that it is available to any subsequent investigation. The invigilator shall as soon as possible report the circumstances orally, in the first instance and thereafter in writing, with any evidence retained, to the Registrar worker who shall in turn notify the Programme Director.

Suspected Unfair Practice Detected During or Subsequent to the Marking Period

An examiner or any other person who, whether in the course of the marking period or subsequently, considers or suspects that a student has engaged in an unfair practice, shall report the matter in writing to the Programme Director as soon as possible. He/she shall retain any relevant evidence and shall forthwith report the matter in writing to the Programme Director.

If it is decided that no further action against the student should be taken, the Programme Director shall, where appropriate, inform the student in writing that the matter is closed.

If satisfied that such a case exists, the Programme Director shall report the case in writing to the Registrar and shall collect copies of any relevant supporting evidence.

The student shall be informed in writing by the Registrar and that the Committee of Inquiry will be convened to consider the case.

Unfair Practice in Work Completed Under Non-examinable Conditions

If a member of the LU faculty considers, or suspects, that unfair practice has occurred in relation to work submitted as a piece of coursework, or any work completed under non-examination conditions, he/she shall report the matter in writing to the Programme Director, normally within five working days.

The Programme Director shall first decide whether there is a prima facie case for treating the matter as a case of unfair practice by referring to documentation. He/she may also consult with the relevant external examiner(s). If the Programme Director believes that a prima facie case exists, he/she shall inform the Registrar to inform the student of the investigation. If no case exists, and the student is aware of the investigation, the student shall be informed that the matter is closed.

Establishment of the Committee of Inquiry for English-language one degree Programmes dealing with **Unfair Practice**

The Committee of Inquiry for English-language Programmes (henceforth referred to as "Committee of Inquiry" or simply "the Committee") shall be a standing panel charged with investigating allegations of unfair practice at LU acting in accordance with the Polish law.

On receipt of an allegation of unfair practice submitted by the Programme Director, the Registrar shall arrange for the Committee of Inquiry to be convened no longer than 6 working weeks of the allegation being made.

The Secretary of the Committee shall inform the student of the date, place and time when the Committee intends to meet and that he/she has the right to be represented or accompanied, to hear all the evidence, to call and question witnesses and to submit other evidence, including evidence of mitigating circumstances.

The student shall be required to inform the Secretary whether or not he/she intends to attend the meeting of the Committee. If the student indicates that he/she does not wish to attend the meeting, the Committee shall proceed in his/her absence. In such a case the student can elect to be represented at the meeting. Where no response is received from the student, there may be one postponement of the Committee pending investigation (e.g. to establish whether the student has received the communications).

A student who intends to be accompanied and/or represented shall inform the Secretary of the name of the person accompanying and/or representing him/her in writing in advance of the meeting, and shall state whether or not the person representing or accompanying him/her has legal qualifications. Such persons cannot attend the meeting in a legal capacity.

Should a student not attend the meeting of the Committee of Inquiry, having previously indicated to the Secretary that he/she would attend, and provided that all reasonable means have been taken to contact the student, the meeting shall proceed in his/her absence.

If the Committee finds that the case has been substantiated, it shall then recommend the penalty to be imposed by the Provost.

When determining the penalty to be imposed, the Committee shall consider the student's record, including profile of marks, and any assessment conventions and regulations for the scheme of study in question.

The final decision on the penalty imposed on student belongs to Provost.

If the Committee or Provost finds that the case has not been substantiated the student shall be informed of the outcome in writing. All record of the case shall be removed from the student's file.
