INSTALLATION & LOGGING IN – MS TEAMS

- 1 --- If MS Teams is already installed on your computer, run the program and proceed directly to section 3. If you don't have MS Teams, download the install wizard from the link: https://www.microsoft.com/en-gb/microsoft-365/microsoft-teams/download-app (click here)
- 2 --- Use Windows Explorer to locate the *"Download"* folder on your computer. Find and run the *Teams_windows_x64.exe* installer the program will automatically setup MS Teams. If you already have MS Teams installed, the program will activate itself shortly afterwards.

3 --- When the welcome screen pops up, please input your Lazarski University e-mail and select the "Log in" button. You will then be asked to input your password.

 \rightarrow Lecturers are notified upon account creation and receive their login credentials \leftarrow

 \rightarrow The initial password is temporary – the user must change it during the first session and memorize it for later use! \leftarrow

If you happen to forget your password please contact the Centre of E-Learning: 22 543 55 17, cel@lazarski.edu.pl

SIGNING OUT - NO TEAMS VISIBLE

Sometimes you may find yourself automatically logged in to a different account and need to switch it to your Lazarski University profile. First, click on your avatar icon in the top-right panel and select the *"Sign out"* option.

If the dialog window asking for your e-mail address does not appear, please close the application and rerun the software.

AFTER LOGGING IN - MS TEAMS MAIN PANEL AND TEAM BROWSER

- 1 8 MS Teams tool panel with different button icons for changing views (also during an ongoing *Meeting*): *Activity, Chat, Your Teams, Assignments, Calendar, Calls, Files.* The three dots at the bottom allow you to browse and select other applications that you can add to your MS Teams tool panel.
- 9 --- Search window: is used to find specific Teams or individual persons
- 10 - Here is your MS Teams Avatar with your initials and your selected picture. Once clicked on, you may customize your profile picture ("Change picture"), adjust the application ("Settings"), view saved posts, adjust the zoom, check for updates and sign out.
- 11 -- Team icons you are a member of.
- 12 - Additional settings

Class Teams are set up prior to the meeting, according to the class groups.

SETTINGS ADJUSTMENT (OPTIONAL)

After clicking on three dots icon scroll down the menu and locate the "Settings" option. You may customize MS Teams in the "General" section – select the Theme (Default / Dark / High contrast) and Layout (Grid / List) that best suits you. The lower section of the "General" settings panel also allows you to adjust other features of the application. For example, enabling the "On close, keep the application running" option will keep MS Teams working in the background, even after closing the program window. Disabling the "Auto-start application" will prevent MS Teams from activating during system boot-up.

Also at General in Settings you can change App language.

TESTING HARDWARE FOR VOICE COMMUNICATION (TEST CALL)

Settings		×
🐼 General	Audio devices	
🔒 Privacy	Realtek(R) Audio	\sim
🗘 Notifications		K
Q Devices 🧲	Speaker	
🕆 Permissions	Headphone (Realtek(R) Audio)	~ - 4
& Calls	Microphone	K
	Microphone in (Realtek(R) Audio)	~
	Make a test call	5
	None	$\mathbf{\mathbf{\vee}}$
	Camera	
	camera	1
	HP Wide Vision HD Camera	~ < 4
	Podgląd	

Your meetings will only be successful if your audio hardware is properly set up. We strongly advise using an external headset - with headphones and a microphone. To set up your audio hardware first click on your avatar icon and scroll down to the "Settings" option. Next, select the "Devices" tab – a list of option will be displayed. No. 1 -"Audio devices" / "Speaker" / Microphone – allows you to select your default *PC Mic and Speakers*, or your external devices. No. 2 -"Make a test call" – will let you record and listen to the sound your microphone. No. 3 -"Camera" – select "Integrated camera" to use the device built into your laptop or a different, external camera.

A Scheduled Meetings may be canceled in the Meeting Settings panel. Access to the panel is possible:

- via the Message board by clicking on the Meeting title (dark-blue field with Meeting title),
- or via the *Calendar* application by clicking on the event.

Once the panel is displayed, click on the "*X Cancel meeting*" option underneath the *Meeting title*. Notifications about the cancellation will automatically be sent to all *Meeting* attendees as well as the *Team message boards*.

STARTING A MEETING

1 --- Select the *Planned meeting* from the *Message board* and click on the "Join" button.

2 --- Students have the possibility to join the *Meeting* before the lecturer does. In order to do so, they simply need to click on the "Join" button.

We strongly request to avoid situations in which a *Meeting* is initiated by a student and the lecturer joins it later. You may then lose control over the *Meeting*.When you schedule or start a *Meeting* in advance, you have full control over the attendees.

PARTICIPANT LIST – MUTING, REMOVING & CHANGING ATTENDEE ROLES (STUDENT'S PRESENTATION)

This way, you may determine who can *Share content* and who can *Mute attendees*, *Remove attendees* and accept people from the waiting room. This panel also allows you to react to improper behavior – you may *mute the student's microphone* – or, as a last resort to bring order to the class – remove the student from the *Meeting*. By making one a *presenter* we give the participant additional rights – sharing the screen, muting the meetings participants etc.

BREAKOUT ROOMS

- 1 --- In the meeting window choose *Breakout rooms* button
- 2 --- Pick preferred number of rooms (max. 50)
- 3 - Choose a way to assign participants automatically or manually

- 1 --- Gear icon leads us to Room settings, where we can enable participants to return to the main meeting
- 2 --- With this button we add another room

3 --- Open rooms (assigned participants are transferred to their rooms, as the meetings organizer we can join every room we want)

- 4 --- Optionally we can set a time limit. After this time rooms will close automatically
- 5 - We recommend, having both options on while opening rooms

MORE OPTIONS (CLOSED / OPEN ROOMS)

/ Set max.	number of points							

- 8 - Decide which students should get the Assignment
- 9 --- After choosing *Edit*, set *date of publishment* (of the assignment for the particular

team), *ending date* (after this date one can still send or change the assignment) i *closing date* (after this date, publishing or editing the assignment won't be possible)

- 10 Materials in form of Word, Excel or PowerPoint file can be shared to the students for two reasons as information, then we choose *Students can't edit*. Or if we want the students to fill f. e. exam prepared in Word, we have to choose *Students edit their own copy*.
- 11 Set who should get a reminder about the assignments closing date
- 12 -- Press "Assign" (students can see the assignment on General)

Centre of E-Learning (CEL) Lazarski University

Cancel Done

Assigning to groups of students, allows students to work together on one task.

We add the assignments for particular students. Every person works on it's own.

12 -- Select a student from the list to view their work (Status: Returned, Late or Not turned in)

Because students may delete or update their files before the Close date, it is recommended to review (or download) the student's work after this date.

A preview window with the student's work is displayed on the left.

- 13 -- Quick navigation buttons to browse the work of individual students.
- 14 -- List of *Files* returned by the student.
- 15 -- Clicking on the *three-dots-icon* will open up a small panel that will let you choose the option of opening the file via application or *Downloading* it to your computer.
- 16 -- Feedback window about the student's work.
- 17 -- Points scored.
- 18 -- Return the reviewed work to the student.

CREATE NEW TEAM (ADDITIONAL OPTION, I.E. FOR SEMINARS OR ACADEMIC PANELS)

In order to create a new *Team*, first select the "*Join or create Team*" button in the top-right corner of the MS Teams panel. Next, click on the "*Create a Team*" option and select "*Class*". Input the *Name* of the class – it should be unequivocal and unique – but foremostly: the *Name* has to start with the prefix "DYD-" [all other names shall be removed]. This setup allows easier *Teams* management in the future.

	$\mathbf{\Lambda}$
	L

Adding people to the new *Team* is possible in the next window. You may select individual students from the "*Students*" list or add other academic staff from the "*Teachers*" list. After finding the appropriate person, click on the "*Add*" button and then the "*Close*" button located in the bottom-right corner.

It is also possible to skip this stage to generate a *Team code* and share it with particular people we want to allocate to the *Team*.
