

# THE LOST LYNX FROM THE SIX FLOOR

Łazarski University is usually happy to see its lovely students, but not on the October 31: "At this day you better [#stayhome](#)" - as everybody says. The most amateur students who love to spend their full day at University: studying hard and scrolling through books, leaving university at 9pm, even THEY don't have enough courage to appear on the Campus that day. Everything is because of one of the scariest story that every student heard about - "The Lost Lynx"...

This story starts many years ago... The story is about a wild cat, which was Łazarski University's mascot for the long time. It was the main figure on every celebration like the Easter, the Indian Day, the New Year's Eve and many others... He could not imagine his life without participating in each of these events.

Once, something bad happened in our city - everything got closed: restaurants, night clubs, boundaries and even the best and powerful University at that time - Łazarski should have to obey the law and shut its doors in front of his own students.

After that, The Lynx "got lost". It could not find anything that would heal its wounds of not being able to see students on campus anymore, take photos with them, dance, study and laugh together. The Lynx have changed completely. He hid in one of the closed rooms on the haunted six floor of sector F. The only people who sometimes see him sneaking through the halls to the dining room in order to steel tomorrow's vegetable soup (he is vegetarian btw) are Mr. Tadeusz and Mr. Zdzisław. After what they have seen during darkness nights, they know, that it's no more a "Cute wild cat" that was hugging students through the study days, now it's mentally unstable animal, who by the way still haven't used its three free appointments with a psychologist consultant, that Łazarski University is offering for its students.

The only treat that The Lost Lynx want - a student! Unfortunately, the October 31 is the only day, when it leaves the Campus and starts searching for some boys&girls, in order to sink his fangs into the theirs necks and suck all the knowledge gained over the years...

One student should be gone at that day and everyone knows it. So lock your doors, windows and have a small rest from studying on that day, because he smells when you are getting knowledge and of course [#stayhome](#) in order to survive and have opportunity to come back on your campus in the near future.
